

## STATE ENVIRONMENTAL POLICY ACT ADDENDUM

**Description of Addendum Proposal:** The Addendum changes measures planned for 2006 to remediate soil contaminated by past pesticide use of lead and arsenic that were not completed. The 2009 interim action measures will include covering the lead and arsenic contaminated soils with a geotextile liner and approximately eight inches of topsoil and turf, raising the existing irrigation system, and placing institutional controls on the site to prevent exposure to site soils.

**Description of Original Proposal/SEPA Action:** Gilbert and Robertson Elementary Schools interim action consisted of excavation of the top 6 inches of existing turf and soil in the areas of highest contamination and disposal of this material at a properly permitted landfill meeting the requirements of RCRA Subtitle D; mixing the remaining soil; removal and reinstallation of existing playground equipment; removal of the existing irrigation system and installation of a new irrigation system; and placement of clean imported topsoil and new turf. A Determination of Non-significance (DNS) was issued with Washington State Department of Ecology as both Proponent and Lead Agency, on June 26, 2006.

**Proponent:** Washington State Department of Ecology

<b>Location of Proposal:</b>	Gilbert Elementary School	Robertson Elementary School
	4400 Douglas Drive	2807 W Lincoln Avenue
	Yakima, Washington	Yakima, Washington
	Yakima County	Yakima County

**Lead Agency:** Washington State Department of Ecology

The lead agency for this proposal addendum has determined that it contains minor new information that does not have a probable significant adverse impact on the environment. This decision was made after review of information on file with the lead agency. This information is available to the public on request.

This Addendum is in accordance with WAC 197-11-600(2) & WAC 197-11-625.
